614	1783 Washington Cent Large Military Bust w/ "Washington & Independence" and rev "United States". ANACS VG10 Damaged. (This cataloger sees no evidence of damage.)	EST	100-125	SE
Half Cents				
615	1807 C-1 ANACS Fine 12. Nice even brown.	EST	100-125	SE
616	1832 PCGS AU53 nice medium brown.	EST	110-135	SE

Large Cents				
618	1800 over 1798 Style 1 Hair S-191 XF+ Detail. The 191 variety was struck w/ the "injured" rev die resulting in a few abnormalities like swelling and numerous die cracks. The high grade of this coin makes these rev imperfections plainly evident and the row of impressed dentils above STAT that often comes with this variety shows clearly. The surfaces are not original but still have an appealing brown color lighter on the obv. This coin should net grade VF-20 even by strict EAC standards. A must-see!	EST P	700-1,000	HWC-SE

644	1913-S ANACS AG3 Scratched. This coin is fully original w/ a full-rim G4 obv. The rev has slightly more wear and some fine light scratches on the highest points suggesting that the coin was gently slid across something a bit coarse. Overall, a very attractive coin for the grade. At a mere 40,000, the 1913-S quarter has the lowest mintage of any coin struck for general circulation since 1900.	EST P 280-375	HWC-SE

690	1901 AU+ on what appear to be dipped or cleaned surfaces. Determination is difficult because the coin has a layer of whitish haze on it heavier on the obverse. The 1901-P Morgan is one of the scarcest issues in high grade despite a large mintage of close to 7 million coins. Speculation is that virtually the entire mintage of 1901-P was a casualty of the Pittman Act of 1918 which resulted in the melting of over 270 million silver dollars and the bullion subsequently exported to India (then in the British Commonwealth) to back the Rupee during WWI.
